

By external force touch or shaking  
will be conduct instantaneously.

PCB Weld zone

#### Feature:

- 1.XB-SW-3080 is spring type, Non-direction vibration induced trigger switches , any angle can be trigger.
- 2.The series of switches, at the rest is open circuit “OFF-state”, When the external force to touch and reach the corresponding vibration, Or move in speed to reach the adequate centrifugal force. The conductive feet will be conduct instantaneously “ON-State”. When the external force disappear, the switches will be revert the “OFF-State”.
- 3.The series of switches trigger sensitivity can be customize according to the customer requirement.
- 4.In the normal, the switches lifespan can be reached 200,000 cycles.
- 5.Suitable for the toys, anti-theft alarm system, electronics scales etc electronic product.

Title		XB-SW-3080-20 Vibration switches		Operating lifespan	200,000 cycles				
Part No.				Humidity	95% RH, 40℃ for 96 hours				
Drawing No.				Pull force of terminal	500gf for 1 minute				
Unit	MM	VER	A	Temperature range	-40℃ to 80℃				
Scale	4:1	DSGD		Open resistance	>10M ohm				
Drawing		Date	2023. 1. 22	Closed resistance	<10 ohm	4	Plastic	Temperature resistance nylon	1
Check		Date		Conductive time	About 2mS	3	Cap 2	Brass, gold-plated	1
Approval		Date		Current	<20mA	2	Spring	Phosphor copper	1
XIBANG ELECTRONICS CO., LTD. http://www.alpsr.cn    www.alpsr.com TEL: 0769-82055138    82056828    Fax: 0769-83663452				Voltage	<12V	1	Copper Cap	Brass, gold-plated	1
				Characteristics		No.	Part name	Material	QTY
